

### Complimentary Physical Therapy Screening

Is there a persistent physical problem stopping you from being as active as you desire? Our professional staff is available to speak with you, answer questions, do a short physical screening and then offer options to alleviate the problems. We can assist in reaching your physician should this be necessary. Screenings will be done by one of our staff physical therapists, all trained at the doctorate level with years of experience.

For your convenience we prefer that appointments be scheduled. We will make every attempt to promptly see you if an appointment is not possible. Please phone 708-645-7700 to schedule at either of our locations.
